

TECHNICAL DATA

CHLOR DISHWASH

Chlorinated Liquid Machine Dishwash

DESCRIPTION

Chlor Dishwash is an extra heavy-duty liquid chlorinated dishwashing detergent. This product is ideally suited for use in commercial or institutional applications.

Chlor Dishwash effectively removes grease and other soils and stains in all types of water conditions.

DIRECTIONS

Apply **Chlor Dishwash** with automatic dispensing equipment at a rate of approximately 2 mL per liter of water. Quantities may vary based on water quality (hardness) and soil load.

Chlor Dishwash is a strongly alkaline product and should not be used to clean soft metal surfaces such as aluminum.

CONTAINS

Potassium Hydroxide, Sodium Hypochlorite, and Water Conditioners.

FOR FOOD PLANT AND INDUSTRIAL USE ONLY
